

Our ref: Notice for Expert - To prepare, design and conduct the Analysis of Republic of Macedonia's E-government global positioning and recommendations for improvement

### Request for clarifications from tenderers

Dear Sir,

Thank you for the interest showed in participating at the tender to prepare, design and conduct the Analysis of Republic of Macedonia's E-government global positioning and recommendations for improvement.

**Question 1.** Therefore, accepting that there is no explicit budget for travel and the like, would it still be acceptable to have discussions with some of the Macedonian key players and if so will ReSPA help with providing introductions in this respect?

**Answer 1.** As specified in Terms of reference, the assignment is home based and no additional travel related costs are envisaged for the given scope of deliverables. Regarding the proposed meetings, we are encouraging utilization of the available on line communication methods.

Yours Sincerely,

Mr. Vlatko NAUMOVSKI  
ReSPA Operations Manager
