GOVERNANCE FOR THE FUTURE

## ReSPA Programme Committee Meeting

15 December 2022

Provisional Programme and Agenda

Venue: tbc

ReSPA activities  
are funded by the  
European Union

## Background

The ReSPA Programme Committee is composed of the state secretaries and/or senior managers responsible for public administration, state secretaries and/or senior managers responsible for Economic reforms programmes, and national IPA Coordinators or NIPAC office representatives. Also, ReSPA Governing Board members at Senior Officials level are welcomed to participate at Programme Committee meetings, actively.

The overall objective of Programme Committee is to assist the ReSPA Members to exchange information on achievement and challenges related to policy coordination among PAR, PFM, and European Integration in ReSPA Members respectively.

The ReSPA Programme Committee coordinates the themes through an inter-sectoral approach. Each program that ReSPA supports benefits from relevant inter-sectoral perspectives. Therefore, the Programme committee combined efforts ensure a higher degree of convergence of the ReSPA programmatic interventions. In this way, ReSPA efforts to connect three important areas: PAR, PFM, and European Integration, should produce better results.

During the 4<sup>th</sup> meeting of ReSPA Programme Committee, the participants will have the opportunity to exchange on the state of play, targeted goals, priorities, and positive examples of deliverables achieved within the current, fourth EC grant for ReSPA, implemented during May 2019-December 2022. At the meeting the representatives of working groups will co-present the main achievement in their policy areas, allowing discussions, brainstorming and elaboration of ideas. In addition, the members of the Programme Committee and other participants will be familiarized with goals and objectives envisaged in the new EC grant which will start implementation in the beginning of 2023, as well as with the concrete activities during 2023. They will be informed on the state of play of PAR in the newest EU Enlargement package 2022, and on the results of the second ReSPA Monitoring report developed during 2022.

The meeting shall be highly participatory and allow enough space for innovative ideas and good practices.
