

ANNEX A. INSTRUCTIONS TO TENDERERS

REFERENCE: RESPA/EC/SER/002-18

When submitting their tenders, tenderers must follow all instructions, forms, terms of reference, contract provisions and specifications contained in this tender dossier. Failure to submit a tender containing all the required information and documentation within the deadline specified may lead to the rejection of the tender.

These instructions set out the rules for submitting, selecting and implementing contracts financed under this call for tenders, in conformity with the Practical Guide, (available on the internet at this address: <http://ec.europa.eu/europeaid/prag/document.do>).

The services required by the Contracting Authority are described in the Terms of Reference. They are set out in Annex II to the draft contract, which forms Part B of this tender dossier.

3. Participation and experts

- a) Natural or legal persons are not entitled to participate in this tender procedure or be awarded a contract if they are in any of the situations mentioned in Section 2.3.3.1. or 2.3.3.2. of the **Practical Guide**. Should they do so, their tender will be considered unsuitable or irregular respectively.
- b) In the cases listed in Section 2.3.3.1. of the **Practical Guide** tenderers may be excluded from EU financed procedures and be subject to financial penalties representing 2% to 10% of the total value of the contract in accordance with the conditions set in Section 2.3.4. of the **Practical Guide**. This information may be published on the Commission website in accordance with the conditions set in Section 2.3.4. of the Practical Guide.

4. Content of tenders

Offers, all correspondence and documents related to the tender exchanged by the tenderer

and the Contracting Authority must be written in English.

Supporting documents and printed literature furnished by the tenderer may be in another language, provided they are accompanied by a translation into the language of the procedure. For the purposes of interpreting the tender, the language of the procedure has precedence.

The tender must comprise of a Technical offer and a financial offer, which must be submitted in separate envelopes (see clause 8). Each Technical offer and financial offer must contain one original, clearly marked '**Original**', and two copies, each marked '**Copy**'. Failure to fulfil the requirements in clauses 4.1, 4.2 and 8 will constitute a formal error and may result in rejection of the tender.

4.1. Technical offer

The Technical offer must include the following documents:

- (1) **Tender submission form** including:
 - a) A signed **declaration** together with a signed "Declaration of honour on exclusion criteria and selection criteria" from each legal entity identified in the tender submission form, using the format attached to the tender submission form.
 - b) A completed **Financial Identification form** (see Annex VI to the draft contract) to indicate the bank account into which payments should be made if the tender is successful.
 - c) The **legal entity file** and supporting documents.
 - d) Duly authorised signature: an official document (statutes, power of attorney, notary statement, etc.) proving that the person who signs on behalf of the company/joint venture/consortium is duly authorised to do so.
- (2) **Organisation and methodology** (will become Annex III to the contract), to be drawn up by the tenderer using the format in Annex III to the draft contract.
- (3) Documentary evidence of the financial and economic capacity and/or of the technical and professional capacity according to the selection criteria. (See further point 2.4.11 of the Practical Guide).

If the documentary evidence submitted is not written in one of the official languages of the European Union, a translation into the language of the procedure must be attached. Where the documents are in an official language of the European Union other than the one of the procedure, it is however strongly recommended to provide a translation into the language of the procedure, in order to facilitate the evaluation of the documents. Documentary proof or statements may be in original or copy. If copies are submitted, the originals must be available to send to the Contracting Authority upon request.

Tenderers are reminded that the provision of false information in this tender procedure may lead to the rejection of their tender and to their exclusion from EU-funded procedures and contracts.

The electronic version of the technical offer must be included with the printed version in the separate envelope in which the technical offer is submitted. If there are any discrepancies between the electronic version and the original, printed version, the latter has precedence.

4.2. Financial offer

The Financial offer must be presented as an amount in Euro and must be submitted using the provided template from this tender dossier. The global price may be broken down by outputs

if required from the Terms of Reference. Tenderers are reminded that the maximum budget available for this contract, as stated in the contract notice, is €70,630 EUR. Payments under this contract will be made in the currency of the tender.

5. Variant solutions

Tenderers are not authorised to tender for a variant in addition to this tender.

6. Period during which tenders are binding

Tenderers are bound by their tenders for 90 days after the deadline for submitting tenders or until they have been notified of non-award. The selected tenderer must maintain its tender for a further 60 days. A further period of 60 days is added to the validity period irrespective of the date of notification. This period can be further extended when the contracting authority is required to obtain the recommendation of the panel referred to in section 2.3.3.1 of the Practical Guide, up to the adoption of that recommendation.

7. Additional information before the deadline for submitting tenders

The tender dossier should be clear enough to avoid candidates having to request additional information during the procedure. If the Contracting Authority, either on its own initiative or in response to a request from a tenderer, provides additional information on the tender dossier, it must send such information in writing to all the tenderers at the same time.

Tenderers may submit questions in writing to the following address up to 21 days before the deadline for submission of tenders, specifying the publication reference and the contract title:

ReSPA – Regional School of Public Administration
Branelovica bb, Danilovgrad, Montenegro
procurement@respaweb.eu

The Contracting Authority has no obligation to provide clarification requested after this date.

Any tenderer seeking to arrange individual meetings with the Contracting Authority and/or the government of the partner country and/or the European Commission concerning this contract during the tender period may be excluded from the tender procedure.

No information meeting or site visit is foreseen.

8. Submission of tenders

Tenders must be delivered to the Contracting Authority for receipt before 28 May 2018 by 10:00 am. They must include the requested documents in clause 4 above and be sent:

- **EITHER** by recorded delivery (official postal service) to:

Regional School of Public Administration – ReSPA
Branelovica, 81410 Danilovgrad, Montenegro
For the attention of:
Ms. Natasa Kuč

- **OR** hand delivered (including courier services) directly to the Contracting Authority against a signed and dated receipt to:

Regional School of Public Administration – ReSPA
Branelovica, 81410 Danilovgrad, Montenegro
For the attention of:
Ms Natasa Kuč

In this case, the acknowledgment of receipt makes proof of compliance with the time-limit for receipt.

Tenders submitted by any other means will not be considered. Tenders must be submitted using the double envelope system, i.e., in an outer parcel or envelope containing two separate, sealed envelopes, one bearing the words '**Envelope A — Technical offer**' and the other '**Envelope B — Financial offer**'. All parts of the tender other than the financial offer must be submitted in Envelope A (i.e., including the Tender submission form, Organisation and methodology).

Any infringement of these rules (e.g., unsealed envelopes or references to price in the technical offer) will lead to rejection of the tender.

The outer envelope should provide the following information:

- a) the address for submitting tenders indicated above;
- b) the reference code of the tender procedure (ReSPA/EC/SER/002-18);
- c) the words 'Not to be opened before the tender-opening session'
- d) the name of the tenderer.

The pages of the Technical and Financial offers must be numbered.

9. Amending or withdrawing tenders

Tenderers may amend or withdraw their tenders by written notification prior to the deadline for submitting tenders. Tenders may not be amended after this deadline.

Any such notification of amendment or withdrawal must be prepared and submitted in accordance with Clause 8. The outer envelope (and the relevant inner envelope) must be marked 'Amendment' or 'Withdrawal' as appropriate.

10. Costs for preparing tenders

No costs incurred by the tenderer in preparing and submitting the tender are reimbursable. All such costs must be borne by the tenderer, including the cost of interviewing proposed experts.

11. Ownership of tenders

The Contracting Authority retains ownership of all tenders received under this tendering procedure. Consequently, tenderers do not have the right to have their tenders returned to them.

12. Evaluation of tenders

12.1. Evaluation of technical offers

The quality of each technical offer will be evaluated in accordance with the award criteria and the weighting detailed in the evaluation grid **in Part C of this tender dossier**. No other award criteria will be used. The award criteria will be examined in accordance with the requirements indicated in the Terms of Reference.

The evaluation of the technical offers will follow the procedures set out in Section 3.3.10 of the Practical Guide (available on the internet at <http://ec.europa.eu/europeaid/prag/document.do>).

12.1.1. Interviews

No interviews are foreseen.

12.2. Evaluation of financial offers

Upon completion of the technical evaluation, the envelopes containing the financial offers for tenders that were not eliminated during the technical evaluation will be opened (i.e. those with an average score of 75 points or more). Tenders exceeding the maximum budget available for the contract are unacceptable and will be eliminated.

12.3. Choice of selected tenderer

The Contract will be awarded to the most advantageous bidder. The best quality/price ratio is established by weighing technical quality against price on an 80/20 basis.

12.4. Confidentiality

The entire evaluation procedure is confidential, subject to the Contracting Authority's legislation on access to documents. The Evaluation Committee's decisions are collective and its deliberations are held in closed session. The members of the Evaluation Committee are bound to secrecy. The evaluation reports and written records are for official use only and may be communicated neither to the tenderers nor to any party other than the Contracting Authority, the European Commission, the European Anti-Fraud Office and the European Court of Auditors.

13. Ethics clauses / Corruptive practices

- a) Any attempt by a tenderer to obtain confidential information, enter into unlawful agreements with competitors or influence the Evaluation Committee or the Contracting Authority during the process of examining, clarifying, evaluating and comparing tenders will lead to the rejection of its tender and may result in administrative penalties.
- b) The tenderer must not be affected by any conflict of interest and must have no equivalent relation in that respect with other tenderers or parties involved in the project.
- c) The European Commission reserves the right to suspend or cancel project financing if corrupt practices of any kind are discovered at any stage of the award process or during the execution of a contract and if the Contracting Authority fails to take all appropriate measures to remedy the situation. For the purposes of this provision, 'corrupt practices' are the offer of a bribe, gift, gratuity or commission to any person as an inducement or reward for performing or refraining from any act relating to the award of a contract or execution of a contract already concluded with the Contracting Authority.
- d) Tenders will be rejected or contracts terminated if it emerges that the award or execution of a contract has given rise to unusual commercial expenses. Such unusual commercial expenses are commissions not mentioned in the main contract or not stemming from a properly concluded contract referring to the main contract, commissions not paid in return for any actual and legitimate service, commissions remitted to a tax haven, commissions paid to a payee who is not clearly identified or commissions paid to a company which has every appearance of being a front company.

Contractors found to have paid unusual commercial expenses on projects funded by the European Union are liable, depending on the seriousness of the facts observed, to have their contracts terminated or to be permanently excluded from receiving EU funds.

- e) The Contracting Authority reserves the right to suspend or cancel the procedure, where the award procedure proves to have been subject to substantial errors, irregularities or

fraud. If substantial errors, irregularities or fraud are discovered after the award of the Contract, the Contracting Authority may refrain from concluding the Contract.

14. Signature of contract(s)

14.1. Notification of award

The successful tenderer will be informed in writing that its tender has been accepted.

14.2. Signature of the contract(s)

Within 10 days of receipt of the contract already signed by the Contracting Authority, the selected tenderer shall sign and date the contract and return it to the Contracting Authority.

Failure of the selected tenderer to comply with this requirement may constitute grounds for annulling the decision to award the contract. In this event, the Contracting Authority may award the tender to another tenderer or cancel the tender procedure.

The other tenderers will, at the same time as the notification of award is submitted, be informed that their tenders were not accepted, by means of a standard letter, including an indication of the relative weaknesses of their tender by way of a comparative table of the scores for the winning tender and the unsuccessful tender. The second best tenderer is informed of the notification of award to the successful tenderer with the reservation of the possibility to receive a notification of award in case of inability to sign the contract with the first ranked tenderer. The validity of the offer of the second best tenderer will be kept. The second tenderer may refuse the award of the contract if, when receiving a notification of award, the 90 days of validity of their tender has expired.

The Contracting Authority will furthermore, at the same time, also inform the remaining unsuccessful tenderers and the consequence of these letters will be that the validity of their offers must not be retained.

15. Cancellation of the tender procedure

In the event of cancellation of the tender procedure, the Contracting Authority will notify tenderers of the cancellation. If the tender procedure is cancelled before the outer envelope of any tender has been opened, the unopened and sealed envelopes will be returned to the tenderers.

Cancellation may occur, for example, where:

- the tender procedure has been unsuccessful, i.e., no suitable, qualitatively or financially acceptable tender has been received or there is no valid response at all;
- there are fundamental changes to the economic or technical data of the project;
- exceptional circumstances or force majeure render normal performance of the contract impossible;
- all technically acceptable tenders exceed the financial resources available;
- there have been substantial errors, irregularities or frauds in the procedure, in particular if they have prevented fair competition;
- the award is not in compliance with sound financial management, i.e. does not respect the principles of economy, efficiency and effectiveness (e.g. the price proposed by the tenderer to whom the contract is to be awarded is objectively disproportionate with regard to the price of the market).

In no event shall the Contracting Authority be liable for any damages whatsoever including, without limitation, damages for loss of profits, in any way connected with the cancellation of a tender procedure, even if the Contracting Authority has been advised of the possibility of damages. The publication of a contract notice does not commit the Contracting Authority to implement the programme or project announced.

16. Appeals

Tenderers believing that they have been harmed by an error or irregularity during the award process may file a complaint. See section 2.4.15 of the Practical Guide.

SELECTION AND AWARD CRITERIA

16. Selection criteria

The following selection criteria will be applied to the tenderers. In the case of tenders submitted by a consortium, these selection criteria will be applied to the consortium as a whole. If not specified otherwise, the selection criteria will not be applied to natural persons and single-member companies when they are sub-contractors.

1) Economic and financial capacity of the tenderer (based on item 3 of the tender form).

In case of tenderer being a public body, equivalent information should be provided. The reference period which will be taken into account will be the last three years for which accounts have been closed.

The objective of this criterion is to examine whether or not the tenderer (i.e., the consortium as a whole, in the case of a tender from a consortium):

- will not be economically dependent on the Contracting Authority in the event that the contract is awarded to it; and
- has sufficient financial stability to handle the proposed contract.

Examples of financial criteria for legal body:

- the average annual turnover of the tenderer must exceed the annualised maximum budget of the contract i.e., the maximum budget stated in the contract notice divided by the initial contract duration in years, where this exceeds 1 year (minimum annual turnover requested may not exceed 2 times the estimated annual contract value, except in duly justified cases motivated in the tender dossier); and
- Current ratio (current assets/current liabilities) in the last year for which accounts have been closed must be at least 1. In case of a consortium this criterion must be fulfilled by each member.

2) Professional capacity of the tenderer (based on items 4 of the tender form).

The reference period which will be taken into account will be the last three years from submission deadline.

The objective of this criterion is to examine whether or not the tenderer (i.e., the consortium as a whole, in the case of a tenderer from a consortium):

- has sufficient ongoing staff resources and expertise to be able to handle the proposed contract
- is not a so-called 'body shop', i.e. a tenderer with no real expertise in fields related to the contract but which simply identifies and proposes experts to fit the project description.

Examples of professional criteria for legal persons:

- at least 3 staff currently work for the tenderer in fields related to this contract

3) Technical capacity of candidate (based on items 5 and 6 of the tender form). The

reference period which will be taken into account will be the last three years from submission deadline.

The objective of this criterion is to examine whether or not the tenderer (i.e. the consortium as a whole, in the case of a tender from a consortium) has sufficient expertise and experience to be able to handle the proposed contract.

Example of technical criterion for legal persons:

- the tenderer has provided services under at least one contract with a budget of at least that of this contract which were implemented at any moment during the following period: 2015-2017.

This means that the project the tenderer refers to could have been started or completed at any time during the indicated period but it does not necessarily have to be started and completed during that period, nor implemented during the entire period. Candidates/tenderers are allowed to refer either to projects completed within the reference period (although started earlier) or to projects not yet completed. In the first case the project will be considered in its whole if proper

evidence of performance is provided (statement or certificate from the entity which awarded the contract, proof of final payment for services). In case of projects still on-going only the portion satisfactorily completed during the reference period although started earlier will be taken into consideration. This portion will have to be supported by documentary evidence (similarly to projects completed) also detailing its value. If a tenderer has implemented the project in a consortium, the percentage that the tenderer has successfully completed must be clear from the documentary evidence, together with a description of the nature of the services provided if the selection criteria relating to the pertinence of the experience have been used.

Previous experience which would have led to breach of contract and termination by a Contracting Authority shall not be used as reference. This is also applicable concerning the previous experience of experts required under a fee-based service contract.

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. It must in that case prove to the Contracting Authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing a commitment on the part of those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility - notably that of nationality - and must fulfil the same relevant selection criteria as the economic operator. With regard to technical and professional criteria, an economic operator may only rely on the capacities of other entities where the latter will perform the works or services for which these capacities are required. With regard to economic and financial criteria, the entities upon whose capacity the tenderer relies, become jointly and severally liable for the performance of the contract.

17. Award criteria

The Contract will be awarded to the most advantageous bidder. The best quality/price ratio is established by weighing technical quality against price on an 80/20 basis.

TENDERING

18. Deadline for receipt of tenders

The deadline for receipt of tenders is specified in point 8 of the Instruction to Tenderers.

19. Tender format and details to be provided

Tenders submitted by any other means will not be considered.

By submitting a tender tenderers accept to receive notification of the outcome of the procedure by electronic means.

21. Alteration or withdrawal of tenders

Tenderers may alter or withdraw their tenders by written notification prior to the deadline for submission of tenders. No tender may be altered after this deadline.

Any such notification of alteration or withdrawal shall be prepared and submitted in accordance with point 8 of the Instructions to Tenderers. The outer envelope (and the relevant inner envelope if used) must be marked 'Alteration' or 'Withdrawal' as appropriate.

22. Operational language

All written communications for this tender procedure and contract must be in English.

23. Legal basis

Regulation (EU) N°236/2014 of the European Parliament and of the Council of 11 March 2014 laying down common rules and procedures for the implementation of the Union's instruments for financing external action.

- 4.3. No subcontract creates contractual relations between any subcontractor and the Contracting Authority.
- 4.4. The Contractor shall be responsible for the acts, defaults and negligence of its subcontractors and its experts, agents or employees, as if they were the acts, defaults or negligence of the Contractor, its experts, agents or employees. The approval by the Contracting Authority of the subcontracting of any part of the contract or of the subcontractor to perform any part of the services shall not relieve the Contractor of any of its obligations under the contract.

The report shall include a description of the problem and an indication of the date on which it started and of the remedial action taken by the Contractor to ensure full compliance with its obligations under the contract. In such event the Contractor shall give priority to solving the problem rather than determining liability.
- 7.6. Subject to Article 7.8, the Contractor undertakes to treat in the strictest confidence and not make use of or divulge to third parties any information or documents which are linked to the performance of the contract without the prior consent of the Contracting Authority. The Contractor shall continue to be bound by this undertaking after completion of the tasks and shall obtain from each member of its staff the same undertaking. The composition or the constitution of the joint venture or consortium shall not be altered without the prior consent of the Contracting Authority. Any alteration of the composition of the consortium without the prior consent of the Contracting Authority may result in the termination of the contract.
- 7.8. Save where the European Commission requests or agrees otherwise, the Contractor shall ensure the highest visibility to the financial contribution of the European Union. To ensure such publicity

ARTICLE 8. CODE OF CONDUCT

- 8.1. The Contractor shall at all-time act impartially and as a faithful adviser in accordance with the code of conduct of its profession as well as with appropriate discretion. The Contractor shall comply with all applicable laws and regulations and codes relating to anti-bribery and anti-corruption.
- 8.5. The payments to the Contractor under the contract shall constitute the only income or benefit it may derive in connection with the contract. The Contractor and its staff must not exercise any activity or receive any advantage inconsistent with their obligations under the contract.
- 8.6. The execution of the contract shall not give rise to unusual commercial expenses. Unusual commercial expenses are commissions not mentioned in the contract or not stemming from a properly concluded contract referring to the contract, commissions not paid in return for any actual and legitimate service, commissions remitted to a tax haven, commissions paid to a recipient who is not clearly identified or commission paid to a company which has every appearance of being a front company. The Contracting Authority and the European Commission may carry out documentary or on-the-spot checks they deems necessary to find evidence in case of suspected unusual commercial expenses.

ARTICLE 9. CONFLICT OF INTEREST

- 9.1. The Contractor shall take all necessary measures to prevent or end any situation that could compromise the impartial and objective performance of the contract. Such conflict of interests could arise in particular as a result of economic interest, political or national affinity, family or emotional ties, or any other relevant connection or shared interest. Any conflict of interests which may arise during performance of the contract shall be notified to the Contracting Authority without delay. In the event of such conflict, the Contractor shall immediately take all necessary steps to resolve it.

- 9.2. The Contracting Authority reserves the right to verify that such measures are adequate and may require additional measures to be taken if necessary. The Contractor shall ensure that its staff, including its management, is not placed in a situation which could give rise to conflict of interests. - 9.6. Civil servants and other staff of the public administration of the country where the services have to be rendered, regardless of their administrative situation, shall not be recruited as experts unless the prior approval has been granted by the European Commission.

ARTICLE 10. ADMINISTRATIVE SANCTIONS

- 10.3. Where the Contracting Authority is entitled to impose financial penalties, it may deduct such financial penalties from any sums due to the Contractor or call on the appropriate guarantee.
- 10.4. The decision to impose administrative sanctions may be published on a dedicated internet-site, explicitly naming the Contractor.
- 10.5. The above administrative sanctions may also be imposed on persons who are members of the administrative, management or supervisory body of the Contractor, on persons having powers of representation, decision or control with regard to the Contractor, on persons jointly and severally liable for the performance of the contract and on subcontractors.

ARTICLE 12. LIABILITIES

12.1. Liability for damage to services

Without prejudice to Article 30 (financial guarantee) and Article 38 (force majeure), the Contractor shall assume (i) full responsibility for maintaining the integrity of services and (ii) the risk of loss and damage, whatever their cause, until the completion of the implementation of the tasks and approval of reports and documents under Articles 26 and 27.

After the completion of the implementation of the tasks, the Contractor shall be responsible for and shall indemnify the Contracting Authority for any damage caused to the services by the Contractor, its staff, its subcontractors and any person for which the Contractor is answerable, during any operation performed to complete any work left, as the case may be, pending or to comply with its obligations under Articles 26 and 27, particularly if the contract is performed in phases.

Compensation for damage to the services resulting from the Contractor's liability in respect of the Contracting Authority is capped at the contract value.

However, compensation for loss or damage resulting from fraud or gross negligence of the Contractor, its staff, its subcontractors and any person for which the Contractor is answerable, can in no case be capped.

The Contractor shall remain responsible for any breach of its obligations under the contract for such period after the services have been performed as may be determined by the law governing the contract, even after approval of the reports and documents, or by default for a period of 10 years.

12.2. Contractor's liability in respect of the Contracting Authority

At any time, the Contractor shall be responsible for and shall indemnify the Contracting Authority for any damage caused during the performance of the services, to the Contracting Authority by the Contractor, its staff, its subcontractors and any person for which the Contractor is answerable.

If the contract value is greater than one million euros, compensation for damages resulting from the Contractor's liability shall be capped to the contract value.

However, compensation for loss or damage resulting from the Contractor's liability in case of bodily injury, including death, can in no case be capped. The same applies to compensation for any damages of any kind resulting from fraud or gross negligence of the Contractor, its staff, its subcontractors and any person for which the Contractor is answerable.

12.3. Contractor's liability in respect of third parties

Without prejudice to Article 14.9, the Contractor shall, at its own expense, indemnify, protect and defend, the Contracting Authority, its agents and employees, from and against all actions, claims, losses or damage, direct or indirect, of whatever nature (hereinafter "claim(s)") arising from any act or omission by the Contractor, its staff, its subcontractors and/or any person for which the Contractor is answerable, in the performance of the services, including any violation of any legal provisions, or rights of third parties, in respect of patents, trademarks and other forms of intellectual property such as copyrights.

The Contracting Authority must notify any third party claim to the Contractor as soon as possible after the Contracting Authority becomes aware of them.

If the Contracting Authority chooses to challenge and defend itself against the claim(s), the Contractor shall bear the reasonable costs of defense incurred by the Contracting Authority, its agents and employees.

Under these general conditions, the agents and employees of the Contracting Authority, as well as the Contractor's staff, its subcontractors and any person for which the Contractor is answerable are considered to be third parties.

- 12.4. The Contractor shall treat all claims in close consultation with the Contracting Authority

13.2. Insurance – general issues

- a) At the latest together with the return of the countersigned contract, and for the period of implementation of the tasks, the Contractor shall ensure that itself, its staff, its subcontractors and any person for which the Contractor is answerable, are adequately insured with insurance companies recognized on the international insurance market, unless the Contracting Authority has given its express written consent on a specific insurance company.
- b) At the latest together with the return of the countersigned contract, the Contractor shall provide the Contracting Authority with all cover notes and/or certificates of insurance showing that the Contractor's obligations relating to insurance are fully respected. The Contractor shall submit without delay, whenever the Contracting Authority or the Project Manager so requests, an updated version of the cover notes and/or certificates of insurance.

The Contractor shall obtain from the insurers that they commit to personally and directly inform the Contracting Authority of any event likely to reduce, cancel or alter in any manner whatsoever, that coverage. The insurers shall deliver this information as quickly as possible, and in any event at least thirty (30) days before the reduction, cancellation or alteration of the cover is effective. The Contracting Authority reserves the right to indemnify the insurer in case the Contractor fails to pay the premium, without prejudice to the Contracting Authority's right to recover the amount of the premium it paid, and to subsequently seek compensation for its possible resulting damage.

- c) Whenever possible, the Contractor shall ensure that the subscribed insurance contracts contain a waiver of recourse in favor of the Contracting Authority, its agents and employees.
- d) The purchase of adequate insurances by the Contractor shall in no case exempt it from its statutory and/or contractual liabilities.

 - i. all medical expenses, including hospital expenses;
 - ii. the full cost of repatriation in case of illness, accident, or in the event of death by disease or accident;
 - iii. accidental death or permanent disability resulting from bodily injury incurred in connection with the contract.

In the absence of adequate insurance, the Contracting Authority may bear such costs to the benefit of the Contractor itself, its staff, its subcontractors and any person for which the Contractor is answerable. This bearing of the costs by the Contracting Authority shall be subsidiary and may be claimed against the Contractor, its subcontractors and any person who should have taken out this insurance, without prejudice to the compensation of the Contracting Authority's possibly resulting damage.

- c) The Contractor shall take out insurance policies providing coverage of the Contractor itself, its staff, its subcontractors and any person for which the Contractor is answerable, in case of an accident at work or on the way to work. It shall ensure that its subcontractors do the same. It indemnifies the Contracting Authority against any claims that its employees or those of its subcontractors could have in this regard. For its permanent expatriate staff, where appropriate, the Contractor shall in addition comply with the laws and regulations applicable in the country of origin.

If the Contracting Authority or the Contractor becomes aware of an imminent threat to the life or health of any of its employees, experts or their families, the Contractor must take immediate emergency action to remove the individuals concerned to safety. If the Contractor takes such action, he must communicate this immediately to the Project Manager and this may lead to suspension of the contract in accordance with Article 35.

By delivering the results the Contractor warrants that the above transfer of rights does not violate any law or infringe any rights of others and that it possesses the relevant rights or powers to execute the transfer. It also warrants that it has paid or has verified payment of all fees including fees to collecting societies, related to the final results.
 - 14.9. Where the Contractor is unable to provide a replacement with equivalent qualifications and/or experience, the Contracting Authority may either decide to terminate the contract, if the proper performance of it is jeopardised, or, if it considers that this is not the case, accept the replacement, provided that the fees of the latter are renegotiated to reflect the appropriate remuneration level.

If the Contractor fails to perform the services within the period of implementation of the tasks specified in the contract, the Contracting Authority shall, without formal notice and without prejudice to its other remedies under the contract, be entitled to liquidated damages for every day which shall elapse between the end of the period of implementation of the tasks specified in the contract and the actual date of completion of these tasks.
- 19.4. The daily rate for liquidated damages is calculated by dividing the contract value by the number of days of the period of implementation of the tasks, up to a maximum of 15% of the total value of the contract.
- 19.5. If the Contracting Authority has become entitled to claim 15% of the contract value, it may, after giving notice to the Contractor:
 - (a) terminate the contract, and;
 - (b) enter into a contract with a third party to complete the services, at the Contractor's cost.

ARTICLE 20. AMENDMENT TO THE CONTRACT

20.1. Any amendment to the contract affecting its object or scope, such as amendment to the total contract amount, replacement of an agreed staff the Curriculum Vitae of which is part of the contract and change of the period of implementation shall be formalised by means of an addendum. Both parties may request an addendum for amendment to the contract according to the following principles:

- (a) An addendum for amendment may be requested only during the period of execution of the contract;
- (b) Any request for an addendum shall be submitted in writing to the other party at least thirty days before the date on which the intended addendum is required to enter into force. - a) The requested contract amendment may take the form of additions, omissions, substitutions, changes in quality, quantity, specified sequence, method or timetable of implementation of the services;
- b) Prior to the issuance of any administrative order, the Project Manager shall notify the Contractor of the nature and the form of the proposed amendment.

The Contractor shall then, without delay, submit to the Project Manager a written proposal containing:

- (i) all measures required to comply with the requested amendment,
- (ii) an updated timetable for implementation of the tasks, and,
- (iii) if necessary, a proposed financial adjustment to the contract, using the contractual fee rates when the tasks are similar. When the tasks are not similar, the contractual fee rates shall be applied when reasonable.

Following receipt of the Contractor's proposal, the Project Manager shall decide as soon as possible whether or not the amendment shall be carried out.

If the Project Manager decides that the amendment shall be carried out, it shall notify the Contractor through an administrative order stating that the Contractor shall carry out the amendment at the prices and under the conditions given in the Contractor's proposal or as modified by the Project Manager in agreement with the Contractor.

- c) On receipt of the administrative order, the Contractor shall carry out the amendments detailed in that administrative order as if such amendments were stated in the contract.

- 24.2. For fee-based contracts, timesheets recording the days or hours worked by the Contractor's staff shall be maintained by the Contractor. The timesheets filled in by the experts shall be confirmed on a monthly basis by the Contractor and shall be approved by the Project Manager or any person authorised by the Contracting Authority or the Contracting authority itself. The amounts invoiced by the Contractor must correspond to these timesheets. ARTICLE 29. PAYMENT AND INTEREST ON LATE PAYMENT

- 29.1. Payments will be made in accordance with one of the options below, as identified in the Special Conditions.

Option 1: Fee-based contract:

The Contracting Authority will make payments to the Contractor in the following manner:

1. A first payment of pre-financing, if requested by the Contractor, of an amount up to maximum 20% of the maximum contract value stated in point 2 of the contract, within 30 days of receipt by the Contracting Authority of an invoice, of the contract signed by both parties, and of a financial guarantee if requested, as defined in Article 30.
2. Six-monthly further interim payments, as indicated in the Special Conditions, within 60 days of the Contracting Authority receiving an invoice accompanied by an interim progress report and an expenditure verification report, subject to approval of those reports in accordance with Article 27. Such interim payments shall be of an amount equivalent to the costs incurred on the basis of the expenditure verification reports. When 80 % of the maximum contract value stated in point 2 of the contract has been paid (pre-financing and interim payments) the amounts due to the contractor shall be deducted from the pre-financing payment until it is completely reimbursed before any additional payment is made.
3. The invoices must be paid such that the sum of payments does not exceed 90% of the maximum contract value stated in point 2 of the contract; the 10% being the minimum final payment.
4. The balance of the final value of the contract after verification, subject to the maximum contract value stated in point 2 of the contract, after deduction of the amounts already paid, within 90 days of the Contracting Authority receiving a final invoice accompanied by the final progress report and a final expenditure verification report, subject to approval of those reports in accordance with Article 27.

Option 2: Global price contract:

If the contract is not divided between different outputs that the Contracting Authority can approve independently, or has a duration of less than two years, the Contracting Authority will make payments to the Contractor in the following manner:

1. a pre-financing payment if requested by the Contractor, of an amount up to 40% of the contract value stated in point 2 of the contract within 30 days of receipt by the Contracting Authority of an invoice, of the contract signed by both parties, and of a financial guarantee if requested, as defined in Article 30;
2. the balance of the contract value stated in point 2 of the contract within 90 days of the Contracting Authority receiving a final invoice accompanied by the final progress report, subject to approval of that report in accordance with Article 27.

If the contract has a duration of at least two years and if the budget is divided between different outputs that the Contracting Authority can approve independently, the Contracting Authority will make payments to the Contractor in the following manner:

1. a pre-financing payment if requested by the Contractor, of an amount up to 40% of the contract value stated in point 2 of the contract within 30 days of receipt by the Contracting Authority of an invoice, of the contract signed by both parties, and of a financial guarantee if requested, as defined in Article 30;
2. one interim payment at the end of each 12 months of implementation of the contract, of an amount corresponding to the outputs delivered, within 60 days of the

Contracting Authority receiving an invoice accompanied by an interim progress report, subject to approval of this report in accordance with Article 27;

3. The invoices must be paid such that the sum of payments does not exceed 90% of the maximum contract value stated in point 2 of the contract; the 10% being the minimum final payment.
4. the balance of the contract value stated in point 2 of the contract within 90 days of the Contracting Authority receiving a final invoice accompanied by the final progress report, subject to approval of that report in accordance with Article 27.

29.2. The date of payment shall be the date on which the paying account is debited. The invoice shall not be admissible if one or more essential requirements are not met. Without prejudice to Article 36.2, the Contracting Authority may halt the countdown towards this deadline for any part of the invoiced amount disputed by the Project Manager by notifying the Contractor that part of the invoice is inadmissible, either because the amount in question is not due or because the relevant report cannot be approved and the Contracting Authority thinks it necessary to conduct further checks. In such cases, the Contracting Authority shall not unreasonably withhold any undisputed part of the invoiced amount but may request clarification, alteration or additional information, which shall be produced within 30 days of the request. The countdown towards the deadline shall resume on the date on which a correctly formulated invoice is received by the Contracting Authority. If part of the invoice is disputed, the undisputed amount of the invoice shall not be withheld and must be paid according to the payment schedule set in Article 29.1.

29.3. Once the deadline referred to above has expired, the Contractor - unless it is a government department or public body in an EU Member State - shall, within two months of receiving late payment, receive default interest:

- at the rate applied by the European Central Bank to its main refinancing transactions in euro, as published in the Official Journal of the European Union, C series, where payments are in euro,
- at the rediscount rate applied by the central bank of the country of the Contracting Authority if payments are in the currency of that country,

on the first day of the month in which the time-limit expired, plus eight percentage points. The interest be payable for the time elapses between the expiry of the payment deadline (exclusive) and the date on which the Contracting Authority's account is debited (inclusive).

By way of exception, when the interest calculated in accordance with the first subparagraph is lower than or equal to EUR 200, it shall be paid to the creditor only upon a demand submitted within two months of receiving late payment.

29.4. Payments due by the Contracting Authority shall be made into the bank account mentioned on the financial identification form completed by the Contractor. A new financial identification form must be used to report any change of bank account and must be attached to the invoice.

29.5. Payments shall be made in euro or in the national currency as specified in the Special Conditions. The Special Conditions shall lay down the administrative or technical conditions governing payments of pre-financing, interim and/or final payments made in accordance with the General Conditions. Where payment is in euro, for the purposes of the Provision for incidental expenditure, actual expenditure shall be converted into euro at the rate published on the Infor-Euro on the first working day of the month in which the invoice is dated. Where payment is in the national currency, it shall be converted into the national currency at the rate published on the Infor-Euro on the first working day of the month in which the payment is made.

29.6. For fee-based contracts, invoices shall be accompanied by copies of, or extracts from, the corresponding approved timesheets referred to in Article 24.2 to verify the amount invoiced for the time input of the experts. A minimum of 7 hours worked are deemed to be equivalent to one day

worked. For all experts, their time input must be rounded to the nearest whole number of days worked for the purposes of invoicing.

- 29.7. Payment of the final balance shall be subject to performance by the Contractor of all its obligations relating to the implementation of all phases or parts of the services and to the approval by the Contracting Authority of the final phase or part of the services. Final payment shall be made only after the final progress report and a final statement, identified as such, shall have been submitted by the Contractor and approved as satisfactory by the Contracting Authority.
- 29.8. The payment obligations of the European Commission under the contract shall cease at most 18 months after the end of the period of implementation of the tasks, unless the contract is terminated in accordance with these General Conditions.
- 29.9. Prior to, or instead of, terminating the contract as provided for in Article 36, the Contracting Authority may suspend payments as a precautionary measure without prior notice.
- 29.10. Where the award procedure or the performance of the contract proves to have been subject to substantial errors, irregularities or fraud attributable to the Contractor, the Contracting Authority may in addition to the possibility to suspend the performance of the contract in accordance with Article 35.2 and terminate the contract as provided for in Article 36, refuse to make payments and/or recover amounts already paid, in proportion to the seriousness of the errors irregularities or fraud.
- 29.11. If the contract is terminated for any reason whatsoever, the guarantee securing the pre-financing may be invoked forthwith in order to repay the balance of the pre-financing still owed by the Contractor, and the guarantor shall not delay payment or raise objection for any reason whatever.

ARTICLE 30. FINANCIAL GUARANTEE

- 30.1. Unless otherwise provided for in the Special Conditions, the Contractor shall provide a financial guarantee for the full amount of the pre-financing payment. The financial guarantee shall be in the format provided for in the contract and may be provided in the form of a bank guarantee, a banker's draft, a certified cheque, a bond provided by an insurance and/or bonding company, an irrevocable letter of credit or a cash deposit made with the Contracting Authority. If the financial guarantee is to be provided in the form of a bank guarantee, a banker's draft, a certified cheque or a bond, it shall be issued by a bank or bonding and/or insurance company approved by the Contracting Authority. This financial guarantee shall remain valid until it is released by the Contracting Authority in accordance with Article 30.5 or Article 30.6, as appropriate. Where the Contractor is a public body the obligation for a financial guarantee may be waived depending on a risk assessment made.
- 30.2. The financial guarantee shall be provided on the letterhead of the financial institution using the template provided in Annex VI.
- 30.3. Should the financial guarantee cease to be valid and the Contractor fail to re-validate it, either a deduction equal to the amount of the pre-financing may be made by the Contracting Authority from future payments due to the Contractor under the contract, or the Contracting Authority shall give formal notice to the Contractor to provide a new guarantee on the same terms as the previous one. Should the Contractor fail to provide a new guarantee, the Contracting Authority may terminate the contract.
- 30.4. If the contract is terminated for any reason whatsoever, the financial guarantee may be invoked forthwith in order to repay any balance still owed to the Contracting Authority by the Contractor, and the guarantor shall not delay payment or raise objection for any reason whatsoever.
- 30.5. For fee-based contracts, the financial guarantee shall be released when the prefinancing is reimbursed in accordance with Article 29.1.
- 30.6. For global price contracts, (i) if the contract is not divided between different outputs that the Contracting Authority can approve independently, or has a duration of less than two years, the financial guarantee shall remain in force until the final payment has been made, and (ii) if the contract has a duration of at least two years and if the budget is divided between different outputs

that the Contracting Authority can approve independently, the financial guarantee shall be released when the prefinancing is reimbursed in accordance with Article 29.1.

- 31.1. The Contractor undertakes to repay any amounts paid in excess of the final amount due to the Contracting Authority before the deadline indicated in the debit note which is 45 days from the issuing of that note.
- 31.2. Should the Contractor fail to make repayment within the above deadline; the Contracting Authority may (unless the Contractor is a government department or public body of an EU Member State) increase the amounts due by adding interest:
- (a) at the rediscount rate applied by the central bank of the country of the Contracting Authority if payments are in the currency of that country,
 - (b) at the rate applied by the European Central Bank to its main refinancing transactions in euro, as published in the Official Journal of the European Union, C series, where payments are in euro,
- on the first day of the month in which the time-limit expired, plus eight percentage points. The default interest shall be incurred over the time which elapses between the date of the payment deadline, and the date on which the payment is actually made. Any partial payments shall first cover the interest thus established.
- 31.3. Amounts to be repaid to the Contracting Authority may be offset against amounts of any kind due to the Contractor. This shall not affect the party's right to agree on payment in installments.
- 31.4. Bank charges arising from the repayment of amounts due to the Contracting Authority shall be borne entirely by the Contractor.
- 31.5. Without prejudice to the prerogative of the Contracting Authority, if necessary, the European Union may as a donor proceed itself to the recovery by any means.

ARTICLE 32. REVISION OF PRICES

- 32.1. The contract shall be at fixed prices, which shall not be revised.

ARTICLE 33. PAYMENT TO THIRD PARTIES

- 33.1. Orders for payments to third parties may be carried out only after an assignment made in accordance with Article 3. The assignment shall be notified to the Contracting Authority.
- 33.2. Notification of beneficiaries of the assignment shall be the sole responsibility of the Contractor.
- 33.3. In the event of a legally binding attachment of the property of the Contractor affecting payments due to it under the contract and without prejudice to the time limit laid down in Article 29, the Contracting Authority shall have 30 days, starting from the day when it receives notification of the definitive lifting of the obstacle to payment, to resume payments to the Contractor.

The invoice will be considered valid only if the monthly report provides the following required information:

- a) Description of transaction/service rendered: analytical information is required, e.g. name of the person on a mission, travel itinerary, dates and times of travel, cost, fare and tax details, the Contractor transaction fee etc.

- b) Action Reference Number, for each transaction listed (Note: this number is necessary for the identification of the relevant authorized order and the validation of the invoiced cost)
- c) Upon the request of ReSPA the Contractor must be able to provide supporting documents which proves the actual cost of services rendered (tickets, taxi rental, train etc.).

ReSPA shall approve or reject the monthly report and proceed to the payment of the invoice within (30) thirty days from receipt of the report and the invoice.

ReSPA is exempted from all taxes and duties, including Value Added Tax (VAT). The Contractor should demand payment directly by the traveller for all additional costs relating to any detours or parts of the journey made for private reasons. ReSPA takes no responsibility and will accept no request for payment of the cost of such travelling arrangements for private reasons. Private arrangements are not subject to the conditions of the contract.

The flexibility of the Contractor to invoice the services only after the provision of the services will be required during the evaluation of the offers. The possibility of invoicing services only after their provision must be clearly indicated in the offer. The invoice must be followed by signed Purchase Order (PO) from responsible ReSPA Programme Manager and with a detailed specification for each flight ticket (name and surname, dates, destinations, price). The PO must contain the number of the event and the name of the Activity.

ii. Transparency of third-party supplier's costs – random audits

The ReSPA reserves the right at any time to request a copy of the financial arrangement or invoice between the third-party provider of services and the contractor.

IMPORTANT NOTE: It is the clear intention of this tender that all potential contractors shall accept the payment model which is entirely based on transaction fees for each service provided, with no extra margin being added to the costs of each service provided by a third party.

Following such a request by ReSPA, if it can be ascertained that an extra cost has been added by the contractor to the third-party provider's quoted cost, then ReSPA reserves the right to reduce the amount of the invoice for that mission by the total amount of the extra cost identified for each particular service provided by the third party.

ReSPA also reserves the right to deal with other travel agencies, carriers, or other bodies for all services, as an alternative to the contract concluded with the successful Contractor, in particular where a cheaper price can be obtained from another supplier.

VII. CONTENT OF THE TECHNICAL OFFER

- a) The Tenderer shall enclose with the Technical Offer all documents and information that will enable its offer to be assessed in terms of quality and of compliance with the Terms of Reference.
- b) The Technical Offer shall include as a minimum the following information and must be undersigned for acceptance:
 - A brief description of the Tenderer's company and the types of services that the company offers;
 - A description of the methodology;
 - A Description of the team proposed by the tenderer to manage and oversee the tender, including the roles of the contact person and the quality manager, and any other persons who will ensure the provision of the highest possible quality of service for this tender. In addition to indicate the name and contact details of the person responsible for this contract tender.
- c) The Tenderer is also required to include an electronic copy of its 'Technical Offer' and 'Financial Offer' form together with paper copies that are mandatory. Electronic copies may be submitted on a physical medium (e.g. CD/DVD, USB stick) only. Please do not provide a link to a remote (e.g. file server-based or cloud-based etc.) service as this cannot be accepted.

VIII. CONTENT OF THE FINANCIAL OFFER

The Financial offer must be drawn up using the Financial Offer form (see Annex – Financial Offer). In order to be valid, it must be duly filled in, dated, stamped, and signed by the authorized person.

Please take special care to enter data in all boxes as described. Failure to provide a fully completed form may result in your offer being declared invalid and not being further evaluated.

IX. AWARD CRITERIA

The contract will be awarded to the most economically advantageous tender in terms of 80 % technical compliance /20 % financial offer ratio.

- a) The financial offers will be evaluated on the basis of the following formula:
Lowest financial offer / financial offer being considered x 20.
- b) The following aspects will be considered in the evaluation of the technical offers against the award criterion on quality of services and support:

No.	Technical Offer – Organization and Methodology		Max. Points
i.	Infrastructure and internal organisation of the tenderer	Team size and composition and balance of skill mix of proposed team: profiles, team roles and responsibilities of all team members, including resource back-up, flexible working hours.	40
ii.	Conformance with services requested	Compliance of the ordering process and other process requirements stipulated in the TOR.	30
iii.	Quality Management of services provided	Quality of the offer and accuracy of the description to provide the requested services and processes that ensure economy and efficiency of proposed freight arrangements	30

Minimum attainment per criterion

Offers scoring less than 50% for any criterion will be deemed to be of insufficient quality and eliminated from further consideration.

Minimum attainment overall

Offers scoring less than 75% after the evaluation process will be considered to be of insufficient quality and eliminated from the following phase.

The sum of all criteria gives a total of 100 points. The respective weighting between the different awards criteria depends on the nature of the services required and is consequently closely related to the terms of reference. The award criteria are thus quantified parameters that the offer should comply with. The **Organization and Methodology** points will be weighted at **80%** in relation to the price.

The attachments to this submission form (i.e. declarations, statements, proofs) may be in original or copy. If copies are submitted, the originals must be dispatched to the Contracting Authority upon request. For economic and ecological reasons, we strongly recommend that you submit your files on paper (no plastic folder or divider). We also suggest you use double-sided printing wherever possible. **All data included in this application must concern only the legal entity or entities making the tender.**

With regard to technical and professional criteria, an economic operator may only rely on the capacities of other entities where the latter will perform the works or services for which these capacities are required. If they do, they must prove to the contracting authority that they have the resources needed to perform the contract, for example by producing a commitment from those entities to place resources at their disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and nationality as the economic operator, as well as the relevant selection criteria..

The following table contains our financial data as included in the consortium's application form. These data are based on our annual audited accounts and our latest projections. Estimated figures (i.e., those not included in annual audited accounts) are given in the columns marked with **. Figures in all columns are calculated on the same basis to allow a direct, year-on-year comparison to be made (or, if the basis has changed, an explanation of the change must be provided as a footnote to the table). When the current ratio is set as selection criterion, for non-for-profit organisations the ratio has to be calculated without taking into account within the current liabilities the pre-financing received from donors for ongoing projects. Any clarification or explanation which is judged necessary may also be provided.
